## REPORT OF SUPERINTENDENT OF SCHOOLS

---

*To the Citizens of New Boston School District:*

The district employs five teachers. Two of these began their work this year. Miss Louise Geer, of Manchester, graduated from Bates College last June. She is teaching Latin, French, English, and other subjects in "High" and "Junior High." Miss Rachel Kendrick of Weare, a graduate of Keene Normal, with an added year of specializing in primary work, is in charge of the primary room.

The schools have been fortunate in having capable, splendidly equipped teachers whose activities are not confined wholly to the teaching of "subjects"; but who find time to enrich the days with music, stories, information about and discussion of present problems. This latter phase is gradually being recognized for its great value, not only in providing material for debates or argument, but in bringing into actual contact "now" the problems that face legislators and leaders, demanding solution. Traditionally, so much of school work has been unrelated to, and out of touch with the actual current everyday life. The problems of today will lead to the problems of tomorrow, which these young people will have to face as intelligent and participating citizens. Now is the time to begin .

Adult education has been a much discussed topic for some time. Not very much has been done. The recent inaugural address of Governor Murphy recommended consideration of some plan for the State. New Boston has been engaging in certain features, perhaps more than most towns. At the present time, Mr. Nedeau is conducting shop classes, one for women and one for men. Last year, Mr. Charter offered a course in Red Cross and First Aid instruction for those beyond school age. This year the advantage of a

Public Forum had been available for the people of New Boston. This has come through the Department of Education at Washington. The "center" established at Manchester has reached out into nearby towns, so that the speakers and leaders used in Manchester have charge here. They deal with national and international questions from a non-partisan and non-political point of view, presenting arguments for and against. The listeners are not told what to think. They are given varying points of view and information, which help to a better understanding and clearer judgment. The attendance has not been large. Those who do attend have attended because it has been of value. If attendance warrants, these meetings on Monday nights in the High School will continue until May. These classes and meetings indicate some of the types of adult education that are now under way in your town.

In education as in all fields of endeavor there have been pioneers. One of the greatest of these in our own country was Horace Mann. One hundred years ago, 1837, Massachusetts enacted a law which created a State Board of Education. Horace Mann was elected Secretary of this board, carrying on a work which laid the foundations of the free public school system which prevails in our land. His creed was "free public schools, supported by all for all."

The quotation below gives expression to his faith in education.

*"If ever there was a cause, if ever there can be a cause worthy to be upheld by all of toil or sacrifice that the human heart can endure, it is the cause of education.*

*The common school is the greatest discovery ever made by man.*

*A patriot is known by the interest he takes in the education of the young."*

HORACE MANN.

Again, as always, we are glad to acknowledge the fine co-operative spirit of the community, the intelligent understanding and directing of school matters by the school board, and the loyal, daily, well-done tasks of the teachers.

Respectfully submitted,

J. BYRON TARNEY,  
*Superintendent of Schools.*
